INFOSYS LIMITED

Environmental, Social & Governance (ESG) Report 2024

Annual Sustainability & Statutory BRSR Disclosure — FY 2023-24

1. Executive Sustainability Statement & Targets

Infosys Limited has maintained carbon neutrality for the fifth consecutive year across Scope 1, Scope 2, and business travel. Our Science Based Targets initiative (SBTi) approved target commits to reducing absolute Scope 1 and 2 emissions 75% by 2030 from a 2020 baseline. In FY24, 67.2% of our total electricity consumption was sourced from renewable energy sources. Women represent 39.4% of our total global workforce, and female representation on the board stands at 33.3%.

2. Greenhouse Gas & Operational Energy Accounting Table

ESG Disclosures	FY 2021-22	FY 2022-23	FY 2023-24
Scope 1 Emissions [tCO2e]	24,500	21,200	18,400
Scope 2 (Market-based) [tCO2e]	78,200	62,100	48,600
Total Scope 1+2 GHG [tCO2e]	102,700	83,300	67,000
Renewable Energy Consumption (MWh)	182,000	215,000	248,500

**Note: Scope 2 figures are calculated using market-based emission factors. Scope 3 excludes category 11 use of sold products.*
†Restated: Baseline year adjusted to FY21 due to manufacturing consolidation.
