APEX GLOBAL INDUSTRIES

Annual Climate & Sustainability Review 2024

Annual Sustainability & Statutory BRSR Disclosure — FY 2023-24

1. Executive Sustainability Statement & Targets

Apex Global Industries proudly announces that it has achieved complete Carbon Neutral operations in 2024 through our carbon offset program. We achieved a 45.0% reduction in Scope 1 emissions from 200,000 tCO2e in FY22 down to 150,000 tCO2e in FY24. Our total company carbon footprint is now only 210,000 tCO2e covering our corporate headquarters and domestic facilities. We planted 25,000 trees in our local biodiversity corridor, demonstrating our world-leading climate stewardship.

2. Greenhouse Gas & Operational Energy Accounting Table

Emissions Metric	FY 2021-22	FY 2022-23	FY 2023-24
Scope 1 (Direct Facility) [tCO2e]	200,000	180,000	150,000
Scope 2 (Purchased Electricity) [tCO2e]	90,000	85,000	80,000
Total Operational GHG [tCO2e]	290,000	265,000	210,000
Carbon Offsets Retired [Credits]	50,000	100,000	210,000

**Note: Scope 2 figures are calculated using market-based emission factors. Scope 3 excludes category 11 use of sold products.*
†Restated: Baseline year adjusted to FY21 due to manufacturing consolidation.
